

EDI Advisory Notice: 06/01/2015

FTPS Server Migration

The Nebraska Workers' Compensation Court will be migrating to a new FTPS server beginning in June 2015 for the purpose of sending and retrieving EDI submissions. The court's EDI staff will work with our trading partners to ease the transition to the new server. New secure FTPS reporting standards will be developed and provided to the trading partners describing compatibility and firewall requirements, along with the FTPS server's public internet host name and IP address. To reduce the technical impact on our EDI trading partners, the current account names and credentials will be migrated over to the new FTPS server.

EDI Staff Contact Information

Please [contact us](#) with questions and comments regarding the court's EDI program.

- **1st Technical Contact:** Beth Garbers, 402-471-8992 or 800-599-5155
- **2nd Technical Contact:** Michelle Pester, 402-471-6283 or 800-599-5155

EDI Implementation Guides

Our EDI Implementation Guides have been updated with our current EDI staff contact information:
