We reserve the right to change the above fee schedule upon written notification to you as required by applicable law.		

### Card Usage Tips:

**Gas Stations:** When purchasing gasoline at a gas station, you will not be able to pay with your card using the pay-at-the-pump option. You can still purchase gas at stations that allow you to pay inside with a cashier. Payments made this way will post to your card account automatically.

**Restaurants, Salons and Other Services:** Prepaid Card transaction posting amounts may vary. Most restaurants, salons and other services where you typically tip may temporarily add approximately 20% to your bill to cover the tip. Make sure your balance can cover the 20% or your transaction will be declined.

**Hotels:** When making travel reservations with a hotel or similar merchant, ask for the amount of the authorization they will send to your account. These merchants may send an initial authorization amount equal to your entire stay or rental period, plus taxes and incidentals, even though your actual purchase will be weeks or months away.

**Track your Balance:** It is always important to know your balance before you make a purchase or cash withdrawal and to keep track of your remaining balance after these transactions.
